34. (A) later (B) after (C) before (D) without
35. (A) availability (B) available (C) valuable (D) suitable

III. 閱讀測驗(36~40題，共5題)

Many people believe that memory is something we are born with, but research shows that memory can be improved through practice. One effective method is to review information at regular intervals instead of studying everything at once. This approach helps the brain store information more deeply. Another useful strategy is to connect new information with what we already know. For example, linking facts to images, stories, or personal experiences makes them easier to remember. In addition, getting enough sleep plays an important role in memory, as the brain processes and organizes information during rest. By developing good study habits and understanding how memory works, students can learn more effectively and reduce unnecessary stress. Improving memory is not about studying longer hours but about studying in smarter ways.

36. What is the main idea of the passage?
- (A) Memory depends on talent
 - (B) Memory can be trained
 - (C) Sleep replaces studying
 - (D) Stress improves learning
37. What does the passage suggest about reviewing?
- (A) Do it all at once
 - (B) Do it before sleeping
 - (C) Do it regularly
 - (D) Do it with others
38. Why are connections helpful for memory?
- (A) They save study time
 - (B) They reduce sleep needs
 - (C) They deepen understanding
 - (D) They increase competition
39. What role does sleep play in memory?
- (A) It stores new facts
 - (B) It organizes information
 - (C) It creates new ideas
 - (D) It tests learning results
40. What does the passage suggest about good studying?
- (A) Study for long hours
 - (B) Study without breaks
 - (C) Study in smarter ways
 - (D) Study under pressure
